

Sinclair Broadcasting's decision to air a fake "news" piece about the Vietnam war with the sole purpose of trying to smear Sen. Kerry's anti-war activism, points to the fact that the 1996 roll-backs on media ownership rules have proven disastrous to our democracy. This is an in-kind contribution of millions of dollars worth of airtime to the Bush campaign that is illegal and should be stopped. In a perfect world, since Sinclair has proven unworthy of the monopoly that they have been granted, all their licenses should be revoked and put up for auction to more socially responsible bidders.

Best Regards,
Jeff Meredith
